- support measures but pls. consult w us again if bring in armed forces.

Horizon - almost out of people... too heavy a hand could embolden

- 'would support' w/out all details though

PM = we will be proportional + responsible

Kenney = agree update on Courts; hoping to open today

-> think today would be very problematic runs the risk of further radicalizing... ^{perception}

-> invoking equivalent of Marshal Law to

-> your language + truckers mandates...

-> I won't quibble over EA...

-> but core are conspiracy theorists + not rational

PM -> not about trucks, we've heard from many

-> why separating out national defence act powers

-> concerns are notes.

Moe -> tools are working here... liked Kenney's comments...

-> lets take steps to bring ppl. together...

enacting the EA won't do that; it will greatly enflam

-> put forward a plan... instead.

MB -> concerned it will invoke escalation...

look at reducing + eliminating restrictions...

-> asked for update re. Biden

Ford → I see this differently. The only way to deescalate in Windsor was to put overwhelming ~~force~~ resources.

- the only thing they understand is seizing trucks...
- can't stand ~~tax~~ passports but follow the science
- credit to all 3 levels of govt. RCMP/OPP/local...
- root cause ... tow trucks...

PM noted how EA will help w tow's...

Leagault → Ottawa is unacceptable...

- we don't have this problem in QC.
- cautious re. inflame.
- we don't want it to apply in QC.
- must only apply to provinces who agree...
- we don't need + don't want...
- "I'm against that clearly for now"

Higgs → winding down out here → no masks at superball
 but Ottawa → so maybe it's not one size fits all... → truckers mandate
 → no sympathy for what's going on in Ottawa
 → don't need anything in NB

King → words + actions matter; over last two years.
 all have... depoliticize
 → I know you don't take lightly.

N.S. → Ottawa is disgusting
 → worried about going backward + this might do that..
 → we don't need

Furey → sets future precedents....
 what is the protest about
 can't placate the few ...
 protect all Canadians...

PM → step by step, proportional.... and cautious

3:35 → Oppo Leader call

Berenson → MB, QC, AB say they don't need it;
 could this work in some places + not national
 → you might say emergency + they hear something
 different... enflame... does it meet security threshold

- why not have pandemic plan (CPC motion)
- want to deescalate

Blanchet →

Jagmeet → clear we are in a crisis;
 ① accountability? ② erosion of trust
 in policing... didn't hide their goals...
 how do we get at extreme right?
 what is plan to address this.

May → will this enflame things... people
 are quick to believe things that aren't
 true...

→ want 48 more hrs to replace Stoly
 + remove trucks...

Bergin → going to need to look at this;
 hear from promisees

→ we all need to not inflame... ^{my position} for last
 → majority want govt. to listen to them ^{few days}
